**PRESS RELEASE**

18 November 2010

**Britehouse acquires majority stake in Swicon 360 (Pty) Ltd and BasisOne (Pty) Ltd**

Britehouse has further strengthened its position in the SAP market and strategy to offer “Cloud Services” to clients by acquiring a majority stake in Swicon360 (Pty) Ltd, an established Human Capital Management Business Process Outsourcing solution provider.

Britehouse has also purchased a majority stake in BasisOne (Pty) Ltd., Africa’s first and only SAP-accredited hosting provider.

Swicon360 has an excellent reputation in the market for the delivery of consulting services as well as business and technical processes in SAP. Swicon360 is the only SAP certified company in Africa offering Business Process Outsourcing (BPO) services in the Human Capital Management (HCM) space.

CEO of Britehouse Specialist SAP Division, Paolo Masselli, says that the acquisition of Swicon360 and BasisOne is an important element in the Britehouse strategy to provide Cloud-based, hosted and BPO SAP solutions to the African market.

“Swicon360 and Basis One will continue to operate as autonomous businesses. The only change will be that Britehouse Director, Grant Tate, will join the Swicon360 and Basis One Executive Team”, Masselli says.

CEO of Swicon360, Markus Bucher, says that this transaction brings together companies that have a great deal of synergy and share a common vision. Being part of the Britehouse and larger Dimension Data Group will increase the ability for Swicon360 to grow in the BPO market in Africa.
